NCS Company | PRESS RELEASE

Carpi, June 2020

NCS and VIMERCATI: a world premiere collaboration

In a world that is trying to resume its green, during an ever faster race against time, the Automotive sector could not be less ambitious in its goal of designing and manufacturing not only everyday cars but also sustainable hypercars: the new cars of a future now present, high performance electric cars with advanced and avant-garde design.

It is precisely in this perspective that we are proud to sign new and important collaborations with VIMERCATI SPA that sees us working together to **guarantee the new frontier of automotive that will be presented as world premiere in the first and unique Made in Italy luxury HyperCar on July 2020.**

This will be the first HyperCar to have the exclusive worldwide product of this Great Collaboration.

VIMERCATI is a historical Italian company in the field of automotive market widely known worldwide, focused on mechatronics, that join the multi-sector expertise of NCS Company, a Carpi-based company founded in the racing & automotive sector and specialized in the production of aesthetic and functional prototypes thanks to one of the largest additive manufacturing fleets in Europe.

NCS Company and VIMERCATI SPA will create together the revolutionary product for all the most important World Car Makers.

Thanks to this partnership, that fills us with pride, we attended together with a group of selected key-suppliers an exclusive international presentation event in the presence of legendary drivers of the highest formula.

This is a great award for us at NCS Company, a recognition for all the hours of work, commitment and passion of the entire team for the production of high technology products and very high added value, where handmade in Italy is real and where technology becomes the greatest expression of contemporary art.

A special thanks goes to all Vimercati SPA team starting from GM Mauro Pizi, Riccardo Marra, Marco Boano and the whole development team.
